PURPOSE AND SUMMARY

The purpose of H.R. 3583 is to reform and improve the Federal Emergency Management Agency, the Office of Emergency Commu-

nications, and the Office of Health Affairs of the Department of Homeland Security, and for other purposes.

BACKGROUND AND NEED FOR LEGISLATION

The Promoting Resilience and Efficiency in Preparing for Attacks and Responding to Emergencies (PREPARE) Act seeks to enhance accountability at the Federal Emergency Management Agency, Office of Emergency Communications, and Office of Health Affairs at the Department of Homeland Security. Part of the Committee's authorization process, the PREPARE Act builds efficiencies and increases coordination for preparedness improvements, while providing greater accountability for taxpayers.

HEARINGS

While the Committee on Homeland Security did not hold a legislative hearing, the legislation was informed by a number of hearings, briefings, and meetings held by the Subcommittee on Emergency Preparedness, Response, and Communications in the 112th, 113th, and 114th Congresses.

In the 112th and 113th Congresses, the Subcommittee held numerous hearings on the Federal Emergency Management Agency's management and administration of homeland security grant programs. On March 19, 2013, the Subcommittee held a hearing entitled, "Homeland Security Grants: Measuring Our Investments." On March 20, 2012, the Subcommittee held a hearing entitled, "Ensuring the Transparency, Efficiency, and Effectiveness of Homeland Security Grants." The Subcommittee continued its series of hearings on grants with Part II of that hearing, Ensuring the Transparency, Efficiency, and Effectiveness of Homeland Security Grants (Part II): Stakeholder Perspectives on April 26, 2012. These hearings, along with countless meetings with stakeholders and FEMA officials, informed the grants provisions in this bill.

The Communications title of the legislation was informed by meetings with Department officials and stakeholders, in addition to the Subcommittee's November 18, 2014 hearing, "Interoperable Communications: Assessing Progress Since 9/11."

The Subcommittee has held numerous hearings in the 112th, 113th, and 114th Congresses on medical preparedness, the threat of chemical and biological terrorism, and the need for robust medical countermeasures programs, including:

- Agents of Opportunity: Responding to the Threat of Chemical Terrorism. March 19, 2015
- Strategic Perspectives on the Bioterrorism Threat. April 22, 2015
- Bioterrorism: Assessing the Threat. February 11, 2014
- BioWatch: Lessons Learned and the Path Forward. June 10, 2014
- Ebola in the Homeland: The Importance of Effective International, Federal, State, and Local Coordination. October 10, 2014
- Taking Measure of Countermeasures (Part I): A Review of Government and Industry Efforts to Protect the Homeland Through Accelerated Research, Development, and Acquisi-

tion of Chemical, Biological, Radiological, and Nuclear Medical Countermeasures. April 13, 2011

- Taking Measure of Countermeasures (Part II): A Review of Efforts to Protect the Homeland Through Distribution and Dispensing of CBRN Medical Countermeasures.” May 12, 2011
- Taking Measure of Countermeasures (Part III): Protecting the Protectors

These hearings, along with meetings with Department officials and stakeholders, informed the Medical Preparedness title of the PREPARE Act.

Over the course of the 114th Congress, the Subcommittee has held a number of meetings with management officials from the Federal Emergency Management Agency. These meetings informed the Management title of the bill.

CONGRESSIONAL BUDGET OFFICE ESTIMATE

The Committee adopts as its own the cost estimate prepared by the Director of the Congressional Budget Office pursuant to section 402 of the Congressional Budget Act of 1974.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, December 1, 2015.

Hon. MICHAEL MCCAUL,
*Chairman, Committee on Homeland Security,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 3583, the PREPARE Act.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Mark Grabowicz.

Sincerely,

KEITH HALL.

Enclosure.

H.R. 3583—PREPARE Act

Summary: H.R. 3583 would specifically authorize the appropriation of \$901 million over the 2016–2020 period for several programs administered by the Federal Emergency Management Agency (FEMA) in the Department of Homeland Security (DHS). CBO estimates that the bill also would authorize the appropriation of \$6 million over the 2016–2020 period for other FEMA and DHS activities.

Assuming appropriation of the necessary amounts, CBO estimates that implementing H.R. 3583 would cost \$505 million over the 2016–2020 period. The remaining amounts would be spent in the years after 2020. Pay-as-you-go procedures do not apply to this legislation because it would not affect direct spending or revenues.

CBO estimates that enacting H.R. 3583 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2016.

H.R. 3583 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA).

Estimated cost to the Federal Government: The estimated budgetary impact of H.R. 3583 is shown in the following table. The costs

of this legislation fall within budget function 450 (community and regional development).

	By fiscal year, in millions of dollars—					
	2016	2017	2018	2019	2020	2016–2020
CHANGES IN SPENDING SUBJECT TO APPROPRIATION						
Estimated Authorization Level	281	279	116	116	116	907
Estimated Outlays	22	62	106	146	169	505

Note: Components may not sum to totals because of rounding.

Basis of estimate: For this estimate, CBO assumes that the necessary amounts will be appropriated near the start of each fiscal year and that outlays will follow the historical rate of spending for those and similar activities.

H.R. 3583 would specifically authorize the appropriation of:

- \$110 million annually over the 2016–2020 period for Operation Stonegarden, through which FEMA would make grants to state, local, and tribal law enforcement agencies to enhance border security;
- \$163 million annually over the 2016–2017 period for the National Domestic Preparedness Consortium within FEMA, which provides training to state, local, and tribal emergency response providers; and
- \$5 million annually for the Rural Domestic Preparedness Consolidation program to provide training to emergency response providers for rural communities.

In total, CBO estimates that implementing those provisions would cost \$499 million, assuming appropriation of the authorized amounts.

H.R. 3583 also would direct DHS, in consultation with the Department of Health and Human Services (HHS), to provide anthrax vaccines from the Strategic National Stockpile to first responders who volunteer to receive them. The bill would direct DHS to provide educational outreach for the program and to establish a pilot program in at least two states to begin providing the vaccine. Based on information provided by DHS and HHS, CBO estimates that implementing this provision would cost about \$4 million over the 2016–2020 period (nearly \$1 million per year).

In addition, H.R. 3583 would require FEMA and other DHS offices to prepare several reports and provide training relating to emergency response issues. Based on the cost of similar undertakings, CBO estimates that those activities would cost about \$2 million in 2016.

Pay-As-You-Go considerations: None.

Intergovernmental and private-sector impact: H.R. 3583 contains no intergovernmental or private-sector mandates as defined in UMRA. State, local, and tribal governments would benefit from federal assistance for border security. Any costs to those entities would be incurred voluntarily as a condition of receiving federal assistance.

Previous CBO estimates: CBO has prepared three estimates for bills that are similar to provisions of H.R. 3583. In particular:

- On May 13, 2015, CBO transmitted a cost estimate for H.R. 623, the DHS Social Media Improvement Act of 2015, as

ordered reported by the Senate Committee on Homeland Security and Government Affairs on May 6, 2015;

- On May 28, 2015, CBO transmitted a cost estimate for H.R. 2206, the State Wide Interoperable Communications Enhancement Act, as ordered reported by the House Committee on Homeland Security on May 20, 2015; and

- On June 24, 2015, CBO transmitted a cost estimate for H.R. 1300, the First Responder Anthrax Preparedness Act, as ordered reported by the House Committee on Homeland Security on May 20, 2015.

Each of those bills contains provisions that are substantively similar to provisions of H.R. 3583 and in all cases our estimates of the budgetary effects are the same.

Estimate prepared by: Federal costs: Mark Grabowicz; Impact on state, local, and tribal governments: Melissa Merrell; Impact on the private sector: Logan Smith.

Estimate approved by: H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

Pursuant to clause 3(c)(4) of Rule XIII of the Rules of the House of Representatives, H.R. 3583 contains the following general performance goals and objectives, including outcome related goals and objectives authorized.

H.R. 3583 seeks to reform and improve the Federal Emergency Management Agency, Office of Emergency Communications, and the Office of Health Affairs of the Department of Homeland Security. To that end, the bill requires FEMA to develop metrics for the State Homeland Security Grant Program and Urban Area Security Initiative; share information on grants management best practices; provide guidance to Emergency Support Function lead agencies to ensure readiness; develop a remedial action management program; appoint a chief management official; develop a strategic human capital plan, and report on efforts to modernize its grants and financial information technology systems. The bill requires the Office of Emergency Communications to annually report on its activities and periodically update the National Emergency Communications Plan. H.R. 3583 authorizes the Department's medical countermeasures program to facilitate personnel readiness, and protection for working animals, employees, and individuals in the Department's care and custody.

DUPLICATIVE FEDERAL PROGRAMS

Pursuant to clause 3(c) of Rule XIII, the Committee finds that H.R. 3583 does not contain any provision that establishes or reauthorizes a program known to be duplicative of another Federal program.

CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, AND LIMITED TARIFF BENEFITS

In compliance with Rule XXI of the Rules of the House of Representatives, this bill, as reported, contains no congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(e), 9(f), or 9(g) of the Rule XXI.

FEDERAL MANDATES STATEMENT

The Committee adopts as its own the estimate of Federal mandates prepared by the Director of the Congressional Budget Office pursuant to section 423 of the Unfunded Mandates Reform Act.

PREEMPTION CLARIFICATION

In compliance with section 423 of the Congressional Budget Act of 1974, requiring the report of any Committee on a bill or joint resolution to include a statement on the extent to which the bill or joint resolution is intended to preempt State, local, or Tribal law, the Committee finds that H.R. 3583 does not preempt any State, local, or Tribal law.

DISCLOSURE OF DIRECTED RULE MAKINGS

The Committee estimates that H.R. 3583 would require no directed rule makings.

ADVISORY COMMITTEE STATEMENT

In compliance with section 5(b) of the Federal Advisory Committee Act, requiring the report of any Committee establishing, or authorizing the establishment of any advisory committee to include a statement as to whether the functions of the proposed advisory committee are being or could be performed by one or more agencies or by an advisory committee already in existence, or by enlarging the mandate of an existing advisory committee.

H.R. 3583 authorizes within the Department a social media working group to identify, and provide guidance and best practices to the emergency preparedness and response community on the use of social media technologies before, during, and after acts of terrorism, natural disasters, and other emergencies.

Membership of the Group shall be composed of a cross section of subject matter experts from Federal, State, local, tribal, territorial, and nongovernmental organization practitioners, including representatives from the following entities:

- (A) The Office of Public Affairs of the Department.
- (B) The Office of the Chief Information Officer of the Department.
- (C) The Privacy Office of the Department.
- (D) The Federal Emergency Management Agency.
- (E) The Office of Disability Integration and Coordination of the Federal Emergency Management Agency.
- (F) The American Red Cross.
- (G) The United States Forest Service.
- (H) The Centers for Disease Control and Prevention.
- (I) The United States Geological Survey.
- (J) The National Oceanic and Atmospheric Administration.

In addition to the Members listed above, the bill requires the Secretary, as the working Group's chairperson, to appoint, on a rotating basis, qualified individuals to the Group, including not fewer than three representatives from the private sector and representatives from state, local, tribal, and territorial entities; university and academia; and nonprofit disaster relief organizations.

The bill authorizes the Group for five years. The Secretary may extend the term of the Group for additional five-year terms upon certification to Congress that the continuation of the group is necessary.

APPLICABILITY TO LEGISLATIVE BRANCH

The Committee finds that the legislation does not relate to the terms and conditions of employment or access to public services or accommodations within the meaning of section 102(b)(3) of the Congressional Accountability Act.

SECTION-BY-SECTION ANALYSIS OF THE LEGISLATION

Section 1. Short Title.

This section provides that bill may be cited as the “Promoting Resilience and Efficiency in Preparing for Attacks and Responding to Emergencies Act”.

TITLE I—GRANTS, TRAINING, EXERCISES, AND COORDINATION

Sec. 101. Memoranda of Understanding.

This section requires the Administrator of the Federal Emergency Management Agency (FEMA) to enter into memoranda of understanding with subject matter experts from other Department of Homeland Security (DHS) components and offices to ensure subject matter experts are involved in policy decisions relating to the State Homeland Security Grant Program, Urban Area Security Initiative, Port Security Grant Program, and Transit Security Grant Program.

Sec. 102. Period of Performance.

This section sets the period of performance for the State Homeland Security Grant Program, Urban Area Security Initiative, Port Security Grant Program, Transit Security Grant Program, and Tribal Security Grant Program at 36 months.

In an effort to reduce the amount of unexpended grant funds on the books, in February 2012, FEMA reduced the period of performance for a number of grant programs to 24 months while simultaneously reducing the prevalence of extensions of the period of performance, which had become common practice. The Committee is supportive of FEMA’s efforts to ensure the expeditious expenditure of grant funds. However, the Committee shared the concern of grant recipients that a 24-month period of performance did not provide sufficient time to complete projects, particularly at the sub-grantee level.

It appears that the enforcement of the period of performance through the denial of most extension requests, rather than a reduction of the period of performance, was the catalyst for reducing unspent balances. The Committee supports FEMA’s decision to revert to a 36-month period of performance for grants programs and this section codifies that timeframe and encourages the continued enforcement of that deadline.

Sec. 103. Operation Stonegarden.

This section authorizes the Operation Stonegarden border security grant program at \$110,000,000. This provision is nearly identical to a provision approved by the Committee in January 2015 in the Secure Our Borders First Act of 2015.

Sec. 104. Grants Metrics.

This section requires FEMA to use information provided by States and high-risk urban areas in their Threat and Hazard Identification and Risk Assessments and State Preparedness Reports to determine the extent to which State Homeland Security Grant Program and Urban Area Security Initiative funds have been used effectively to close capability gaps.

Sec. 105. Grant Management Best Practices.

This section requires FEMA to share information on methods to address areas identified for improvement in grants audits conducted by the Department's Office of Inspector General and innovative practices with recipients of State Homeland Security Grant Program and Urban Area Security Initiative funds as part of yearly grant guidance.

The Committee believes that grant recipients can greatly benefit from the sharing of information on management best practices, corrective actions, and other innovative practices. They could also benefit from access to information on projects conducted by other jurisdictions. The Committee has received testimony from first responders advocating for the development of a searchable database of grant projects funded through the State Homeland Security Grant Program and Urban Area Security Initiative at which grantees could look when developing projects. The Committee supports FEMA's efforts to collect more project level data in grant applications, but acknowledges that such a database may not be within FEMA's capabilities at this time. However, as FEMA gains greater insight into individual projects, there may be merit in the development of a mechanism for grant applicants to learn about successful projects in another jurisdiction.

Sec. 106. Administration and Coordination of Grants.

This section further delineates the stakeholders, such as public health officials and fusion centers, as appropriate, which states and high-risk urban areas should include in statutorily required grants planning committees.

Sec. 107. Funding Prohibition.

This section prohibits the Secretary of Homeland Security from implementing the National Preparedness Grant Program unless the Secretary receives prior authorization from Congress.

Sec. 108. Law Enforcement Terrorism Prevention.

This section seeks to ensure that the 25 percent set aside for law enforcement terrorism prevention activities required under the State Homeland Security Grant Program and Urban Area Security Initiative is met by requiring the Assistant Secretary for State and Local Law Enforcement to work with the FEMA Administrator to certify that the grants are appropriately focused on law enforce-

ment terrorism prevention activities. This section also requires the Assistant Secretary of State and Local Law Enforcement to coordinate with State, local, and tribal law enforcement partners on Department policies and programs that may impact such partners.

Sec. 109. Allowable Uses.

This section consolidates two allowable uses bills that have been introduced by former Committee on Homeland Security Members. This section authorizes State Homeland Security Grant Program and Urban Area Security Initiative funds to be used to (1) work in conjunction with a National Laboratory, and (2) enhance medical preparedness. Both provisions have previously passed the House.

Sec. 110. Maintenance of Grant Investments.

This section requires grant applicants to develop a plan for the maintenance of equipment purchased using State Homeland Security Grant Program or Urban Area Security Initiative funds.

Sec. 111. National Domestic Preparedness Consortium.

This section reauthorizes the National Domestic Preparedness Consortium, which was originally authorized in the Implementing Recommendations of the 9/11 Commission Act of 2007. The section authorizes \$65 million for the Center for Domestic Preparedness for Fiscal Years 2016 and 2017 and the \$98 million for the remaining members of the National Domestic Preparedness Consortium for Fiscal Years 2016 and 2017, amounts equal to the current appropriated levels.

Sec. 112. Rural Domestic Preparedness Consortium.

This section authorizes \$5 million out of the amount appropriated for the Continuing Training Grants to be used for the Rural Domestic Preparedness Consortium.

Sec. 113. Emergency Support Functions.

This section requires the FEMA Administrator to periodically update the National Response Framework. Additionally, based on findings from a recent Government Accountability Office (GAO) report, this section requires the President, through the Administrator, to develop and provide to relevant federal agencies and departments, metrics to ensure readiness to execute responsibilities under the National Response Framework's Emergency Support Functions.

Sec 114. Review of National Incident Management System.

This section requires the FEMA Administrator to review the National Incident Management System (NIMS) periodically, but not less often than once every five years.

Sec. 115. Approval of Certain Equipment.

This section requires the FEMA Administrator to develop and implement a process for reviewing grant applications to purchase equipment or systems not on the Authorized Equipment List.

Sec. 116. Remedial Action Management Program.

Like the previous section, this provision is based on findings from a recent GAO report. The section requires the FEMA Administrator to establish a program to identify and track lessons learned, corrective actions, and best practices from training, exercises and real world incidents. The section also requires the FEMA Administrator to electronically share after-action reports and information on lessons learned and best practices from responses to acts of terrorism, natural disasters, and other exercises or emergencies with Congress and relevant Federal, state, local, tribal, and private sector officials.

TITLE II—COMMUNICATIONS

Sec. 201. Office of Emergency Communications.

This section restricts the Secretary of Homeland Security's ability to change the location or reporting structure of the Office of Emergency Communications without prior authorization from the House Committee on Homeland Security and the Senate Committee on Homeland Security and Governmental Affairs.

Sec. 202. Responsibilities of Office of Emergency Communications Director.

This section makes technical corrections to the responsibilities of the Director of the Office of Emergency Communications and codifies additional responsibilities.

Sec. 203. Annual Reporting on Activities of the Office of Emergency Communications.

This amendment requires the Director of the Office of Emergency Communications to submit an annual report, for the next five years, to the Committee on Homeland Security and Committee on Energy and Commerce of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate on the activities and programs of the Office of Emergency Communications.

Sec. 204. National Emergency Communications Plan.

This section requires the Office of Emergency Communications to update the National Emergency Communications Plan at least once every five years and consider the impact of emerging technologies on the attainment of interoperable communications as part of that update.

Sec. 205. Technical Edits.

This section makes technical corrections to the Communications Title of the Homeland Security Act.

Sec. 206. Public Safety Broadband Network.

This section requires the Under Secretary of the Department of Homeland Security's National Protection and Programs Directorate to submit information to the Committee on Homeland Security and Committee on Energy and Commerce of the House of Representatives and Committee on Homeland Security and Governmental Af-

fairs of the Senate on the Department of Homeland Security's responsibilities related to the development of the nationwide Public Safety Broadband Network, including information on efforts by the Department to work with the First Responder Network Authority to identify and address cyber risks that could impact the near or long term availability and operations of the network and recommendations to mitigate such risks.

Sec. 207. DHS Social Media Working Group Improvement Act.

This section amends the Homeland Security Act of 2002 to authorize and enhance the Department's Virtual Social Media Working Group (the Group), chaired by the Secretary or his or her designee, to ensure information sharing between the Department and appropriate stakeholders regarding the use of social media before, during, and after a terrorist attack or other emergency. This section is similar to legislation introduced by Congresswoman Susan Brooks and passed by the House.

Sec. 208. Statewide Interoperability Coordinators.

This section amends section 2004 of the Homeland Security Act (the authorizing statute for the State Homeland Security Grant Program (SHSGP)) to require a governor to certify, as part of his or her application for State Homeland Security Grant Program funds, that he or she has designated a Statewide Interoperability Coordinator (SWIC), or, if a SWIC has not been designated, that the State is performing in another manner the functions of a SWIC, including an identification of the person designated by the State as the primary point of contact for these activities. This section is identical to legislation introduced by Congressman Payne and passed by the House.

Sec. 209. Communications Training.

Based on the findings of a recent GAO report, this section requires the Under Secretary for Management, in coordination with appropriate component heads, to develop a mechanism to verify that radio users at the Department of Homeland Security receive relevant radio training.

TITLE III—MEDICAL PREPAREDNESS

Sec. 301. Anthrax Vaccination Pilot Program.

This section amends Title V of the Homeland Security Act of 2002 to authorize the establishment of an anthrax vaccination program, with an associated pilot, to provide surplus anthrax vaccines from the Strategic National Stockpile to emergency response providers on a voluntary basis. This section is nearly identical to legislation introduced by Congressman King and passed by the House.

The Committee directs the Department to pilot the voluntary vaccination program in at least two States, but does not intend to limit the Department's ability to pilot the effort in more than two States or geographic locations. Additionally, if warranted, the Department may expand the effort to emergency response providers in additional geographic locations before the end of the pilot period.

Sec. 302. Chief Medical Officer.

This section codifies the current responsibilities of the Department's Chief Medical Officer, including coordinating the Department's policy, strategy, and preparedness for terrorist attacks and high consequence events using chemical, biological, radiological, or nuclear agents or explosives, pandemic influenza and emerging infectious diseases; ensuring the workforce has standards, policies, and metrics for occupational safety and health; and providing medical liaisons to the Department's components.

Sec. 303. Medical Countermeasures Program.

This section authorizes the Department of Homeland Security's medical countermeasures program to protect the DHS workforce, working animals, and individuals in the Department's care and custody from the effects of chemical, biological, radiological, and nuclear agents, and to ensure mission continuity.

The Committee is concerned with findings from an August 2014 DHS Inspector General review of the Department's medical countermeasure program, *DHS Has Not Effectively Managed Pandemic Personal Protective Equipment and Antiviral Medical Countermeasures* (OIG-14-129). As a result, the section addresses the Inspector General recommendations related to medical countermeasure quantity determination; stockpile replenishment; inventory tracking; and cross-component standards for storage, security, dispensing and documentation.

TITLE IV—MANAGEMENT

Sec. 401. Mission Support.

This section requires the FEMA Administrator to designate an individual to serve as the chief management official and principal advisor to the FEMA Administrator on matters related to the management of FEMA.

The Committee is supportive of FEMA's efforts to strengthen and improve its management through the Mission Support Bureau and authorizes the designation of a chief management official and principal advisor to the FEMA Administrator on issues related to the five management business lines: human resources, procurement, information technology, real property, and security. The Committee believes the role of a chief management is essential to the efficient functioning of the agency. The Committee believes FEMA must develop and implement management controls to ensure appropriate oversight of Agency management functions. The Committee was concerned to learn about the findings of the DHS Office of Inspector General report, *OIG-14-151 FEMA's Logistic Supply Chain Management System Many Not Be Effective During a Catastrophic Disaster*. According to the report, FEMA spent \$247 million over nine years to implement the Logistics Supply Chain Management System that cannot interface with partners' logistics management systems or provide real-time visibility over all supplies shipped. The program office responsible for the system did not analyze alternatives to determine how best to close the gap in FEMA's logistics capability; did not report life cycle cost increases to the component acquisition executives; and did not formally report program

breaches as required. Section 401 requires FEMA's designated management official to be responsible for enforcing management and administrative policies across the Agency.

The Committee intends for the review of the five management business lines to identify management controls, costs, number of associated systems, associated capability gaps, and areas of duplication both at FEMA headquarters and the ten regional offices. Further, this review must include a strategy that demonstrates how the designated management official captures reliable, interoperable, and measurable data on all management and administrative activities. The strategy should address any problems identified in the review.

Sec. 402. Systems Modernization.

This section requires the FEMA Administrator to report to Congress on plans to modernize its grants and financial information technology systems. The report should include lessons learned in the summary of all previous efforts to modernize each of these systems. This report should identify how each of these modernization efforts are meeting cost schedule expectations and the efforts being made to avoid delays in the acquisition life cycle.

Sec. 403. Strategic Human Capital Plan.

This section reinstates a requirement in the Post Katrina Emergency Management Reform Act that the FEMA Administrator to develop and submit to Congress a strategic human capital plan including a workforce gap analysis, recruitment and retention analysis, performance metrics, and staffing goals.

According to a July 2015 GAO report, FEMA's Workforce Management (GAO-15-437), FEMA's strategic workforce plan for 2008-2012 did not include performance metrics or identify potential workforce gaps, overlaps, or inconsistencies. Additionally, the National Academy for Public Administration recommended that FEMA develop a 5-year strategic workforce plan that addresses retention challenges by implementing goals and objectives for recruiting and retaining employees. FEMA ranked 281 out of 315 Subcomponent Agencies in the recent Federal Employee Viewpoint Survey. To address these shortcomings, the Committee continues the requirement that FEMA develop and implement a strategic human capital plan.

Sec. 404. Activities Related to Children.

This section requires the FEMA Administrator to integrate the needs of children into the Agency's activities and appoint a technical expert, as necessary, consistent with the recommendation of the National Advisory Council.
